ArAl Project

**Arithmetic pathways
Towards favouring
Pre-algebraic thinking**

Authors

Nicolina A. Malara
University of Modena and Reggio Emilia (Italy)

Giancarlo Navarra
Grem of Modena
University of Modena and Reggio Emilia (Italy)

The ArAI Project has been realized within the framework of:
The ELTMAPS Project (71678-CP-1-2001-1-UK-COMENIUS-C31), supported by the Directorate-General for Education and Culture of the European Commission;
The SeT Project (C.M. 270, 12.11.1999), a special project for Science & Technology Education, supported by the Italian Ministry of Education.

Translations: The English versions of all project texts were produced from the Italian source originals by Guido Comin, Graziella Esposti and Chiara Giaffredo.

Contents

Acknowledgments.....	V
Authors.....	VII
Preface.....	IX
Introduction.....	XI

Part I: The Theoretical Frame

1. The current state of teaching/learning of algebra	1
2. Cultural key elements of the ArAl project	8
3. Methodological Aspects	14
4. Topics of the Units	17

Part II: The ArAl Glossary: a mediation tool between the theoretical framework and the teaching units	21
--	----

Part III: The Teaching Units

1. Brioshi and the approach to algebraic code	55
2. The Numbers Grids	81
3. The Numbers Pyramids	107
4. Matematòca and Other Games	127
5. Regularity: Frames and Necklaces	185
6. From the Scales to the Equations.....	207
